Charles R. Roistade (ps.)

present position: CI staff
C/ops coord branch
east Asia & Africa

Lou Conein.
WerBell

1963 - Viet Nam - dep. ch.
sp. ops. branch.

to HQ - [N. VN / CAMBODIA] / CI desk.
~~Ita~~

27.03

[D]COS [Burma] 68-70

13-5

70 [Thailand] DCO/ext. ops.
71-72 $Assist for narcotics
& dangerous drugs.

then to "NARCOG" HQ liaison
on Drugs 7/73-7/75

1975 → CI staff/SOB → sensitive
CI matters.

3/R/N 10144-10240

These are Dan Neiscuir's initals

expertise in East Asian & CI.

inhouse investigations:

never did any of them.

did work on an "Oswald Task Force"

2 or 3 FOIA suits late 9 or 10/75.
info had to be processed & C/CIS decided to have ops off do review.

[DN]03 one as well as a primary contact @ 2 investigators from SSC. which was going on at same time
"much the same as Russ Holmes is doing right now"

no research & analysis that he was aware of.

CI/SIG - heard of → apparently component

DN

under Angleton before
(DN)[03] joined staff.
never clear what did
"tightly held compartmented
component"
may have dealt w cooks
+ ciphers - there is still
a "residual branch" in
CIS that deals w that

CI/SIG was part of R+A.

"D" was (is) component
that deals w NSA - all
matters
station "close support
team" monitored commo
per NSA requirements

D had responsibility on
Agency's part to respond
to NSA requirments

seperate from CIS.

TSD → support for tech.
ops also seperate.

was not "Special Intelligence"
was "Investigations!"

if SIG worked codes
would have had high
level liaison @ D.
+ SIG may have been
tasked by D for things
that required CI knowledge

pure supposition.

Ray Rocca or Russ Holmes
would know best about
SIG.

SIG would have opened
201 cause LHO defector.

only 2 peices of paper
Agency originated prior
to ass'n.

a year to open? doesn't
know if unusual - he
would have opened in
59 on first hearing. Could
have been a soft file

MEXI - p. 3

but never heard of
consolidation of files
when Rocky commission
looked into it.

Micktenbaugh "hits a note"
but can't recall.

Didn't know Annie wrote
History.

only photo he recalls
in file is MMM.
ID's CE237.
doesn't recall series

Bustos doesn't ring a bell

Robert Wall — OS.
Bill Perkins — TASK
[Robert Litwiak] (ph) — FORCE.
03

about 15 or 20 worked on
FOIA sanitization
LEN BREA (ph)
Tony ~~Getio~~ (ph) SILEO
[KEN JASPER] 03
PAUL HARTMAN - ROCCA'S "honcho" on
INVESTIGATION

2/N

material withheld from
SSC - about 10 document
but were shown to them
on specific request.
irrelevant sources +
methods - identity of
agents.

met Rocca twice - can't
recall when. - sat in on
a SSC sessions @ him.

never have been able to
locate delineation agree.
has never heard of it
but "from his lips."

Rocca's memos: interesting
theory in sense Castro
was trying to give us
a signal. But wondered
why Rocca waited ten
years to advance it.

Swenson: no Bells.

Piccolo - okay memory -
sometimes fuzzy.
